**III. FIVE YEAR REPORT**

In accordance with Government Code Section 66001, the School District provides the following information with respect to the Reportable Fees in the account or sub-account(s) remaining unexpended, whether committed or uncommitted to projects:

**A. Identification of the Purpose to which the Reportable Fees are to be Put**

The purpose of the Reportable Fees imposed and collected on new residential and commercial/industrial development within the School District are to fund the additional school facilities required to serve students generated by new development within the School District. Specifically, the Reportable Fees will be used for the construction, expansion, and/or acquisition of additional School Facilities, furnishing and equipping such facilities, as well as acquiring and installing additional portable classrooms to accommodate students.

**B. Demonstration of a Reasonable Relationship Between the Reportable Fees and the Purposes for which they are Charged**

There is a roughly proportional and a reasonable relationship between the new development upon which the Reportable Fees are charged and the need for additional School Facilities. This relationship is based on the additional students that will be generated by new development within the School District exceeding the School District’s existing student capacity. Furthermore, the Reportable Fees do not exceed the costs of providing school facilities for the students generated from the development in which such fees are collected (as set forth in the Studies, referred to herein Section II.B).

**C. Identification of All Sources and Amounts of Funding Anticipated to Complete Financing of the School Facilities the School District Identified in the School District's Reports**
